Reasons for Allowance

1. The following is an examiner's statement of reasons for allowance: Claims 24-36, 41-47, 49, 52, 54, 56 have been found to be allowable over the prior art of record since the prior art of record either alone or in combination neither discloses nor makes obvious the combination of a position detecting apparatus and corresponding method for detecting positions of a plurality of divided areas divided by street lines on a substrate and comprising among other features, a processing unit connected to an observation system for obtaining a positional relation between a reference coordinate system which defines the movement of the substrate and the arrangement coordinate system which corresponds to the plurality of divided areas on the substrate based on image information regarding a boundary between a street line and one of the divided areas detected by the observation system while the substrate and the observation field are moved relatively, as recited in the instant claims of the present invention. Applicant's arguments filed March 7, 2005 with respect to prior art are deemed persuasive and incorporated herein by reference.

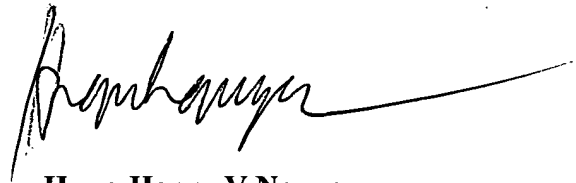

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Hung Henry V. Nguyen whose telephone number is 571-272-2124. The examiner can normally be reached on Monday-Friday (First Friday off).
